Weather & Climate

Bulgaria has a temperate-continental climate with hot summers, long, cold winters and very distinct seasons.

Winter, from December to February, is cold throughout the country.

Spring, from March to May, is not very rainy, however, because of the clash between different air masses, it experiences great changes in temperature. Usually, from mid-April or May, temperatures in the plains begin to be mild or warm in a more stable way. In May, in fine weather, afternoon thunderstorms begin to occur.

Summer, from June to August, is warm, or even hot, especially in inland plains.

Autumn, from September to November, starts as a mild and pleasant season, with rare rains.

Language

Bulgarian is the only official language in the country. Other languages include Russian, English, Italian, Spanish and French.

Religion

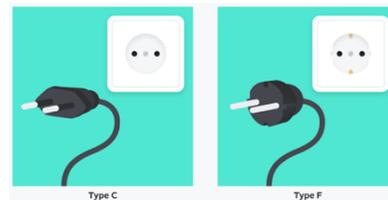

Bulgaria has been traditionally a Christian state since the adoption of Christianity as state religion in 865, and therefore the dominant confession is Eastern Orthodoxy of the Bulgarian Orthodox Church.. The Constitution of Bulgaria defines it as a secular state with guaranteed religious freedom, but designates Orthodoxy as a “traditional” religion.

Internet

Bulgarian internet speed is one of the fastest in the world – you will find hotspots almost everywhere. However, we encourage a digital detox this trip, in which you will have a full experience of grounded-ness, reflection, mindfulness, inspiration and connection. We strongly recommend you to disconnect to reconnect with yourself, the community, and the nature!

Electricity

The standard voltage is 230V and 50Hz – use a type C or type F plug

Money

ATMs are widely available. Credit cards are accepted in most hotels and restaurants; smaller guesthouses or rural businesses may only accept cash, preferably Bulgarian Lev, although some places might accept Euro.

What to Wear

Summer comes in June, so dress in lightweight clothing for the day and a warmer top for the evenings as the temperature can drop to 16°C at night. You can expect 15 long hours of daylight with nine hours of sunshine each day at a very high UV level, so don't forget your sunblock. It will be good to bring along a selection of light clothes, T-shirts, pants, and prepare a light jacket.

Visits to the monastery will require you to cover your knees and elbows when visiting, preferably in long sleeves and pants.

Drinking Water

Tap water is generally safe and drinkable, but not advisable in rural areas. It's best to use bottled mineral water, which is widely available and cheap.
